## ECEPTIONIST® SELECTED FOR USE BY JOHNS HOPKINS MEDICINE INTERNATIONAL

**Houston, Texas, USA** – Eceptionist, Inc. announced today that the Eceptionist platform will be used by Johns Hopkins Medicine International (“JHI”) to run its global “Medical Second Opinion” service. JHI’s second opinion service gives patients anywhere in the world the ability to have Johns Hopkins physicians review their cases and provide remote second opinions.

JHI will be using Eceptionist’s Telehealth and Triage Manager modules to manage the medical second opinion service between The Johns Hopkins Hospital in Baltimore and affiliate hospitals around the world. Eceptionist’s Triage Manager is a solution that allows healthcare organizations to manage the request and referral of services both into and out of the healthcare economy. Triage Manager is a cutting-edge tool that organizations can use across multiple enterprises to optimize and efficiently triage patients to ensure that each patient is put on the right care plan and that each service-providing organization is able to optimize its resources. Eceptionist’s Telehealth Manager is a platform that organizations use to manage and provide telemedicine services. Telehealth Manager supports virtual and asynchronous telemedicine models including virtual tele-consults, multi-disciplinary team meetings (MDT) and tele-learning.

Johns Hopkins Medicine International (JHI) (<http://www.jhintl.net>) facilitates the global development of Johns Hopkins Medicine’s mission of teaching, research and patient care. As the international access point to more than 2,000 Hopkins experts in medicine and health care administration, JHI coordinates treatment for patients who travel to Baltimore and provides health care consulting services and a wide range of educational programs through strategic alliances and affiliations abroad.

Eceptionist, Inc., (<http://www.eceptionist.com>) is a privately held company located in Houston, Texas. The Eceptionist platform is dedicated to helping organizations provide patients with a better quality of care. Organizations use the Eceptionist platform to better manage healthcare as it is delivered across departments, sites, communities and countries. Eceptionist supports Scheduling, Telemedicine, E-Referral and Triage Management, Disease and Case Management, Care Pathways, Protocols and Reporting for facilities and hospitals. Eceptionist is in use worldwide on a daily basis. Eceptionist’s customers include the United States Military, the
