FOR IMMEDIATE RELEASE

13 March 2006

ECEPTIONIST® BEGINS PALESTINE SERVICE

Houston, Texas – Houston TX – Eceptionist, Inc. announced today that eight hospitals in the Palestine region have begun using Eceptionist's telemedicine platform to manage the Palestinian Telemedicine Network. The Eceptionist platform is being provided through the Italian company Telbios. Telbios is the Italian leader in telemedicine services.

The network is the first of its kind to be set up in the region. The network can also connect in with and access second opinions from elite specialists from San Raffaele hospital in Milan, Italy.

The Eceptionist platform is being used by the network to manage and support different services that are provided through the Palestinian Telemedicine Network. A summary of the benefits is included below.

- Improves the quality of the healthcare that is available to patients in their local areas by giving patients access to specialties that are not provided in the areas where they live
- Access to second opinions from specialists not in the region
- Continuity of care for remote follow-up patients
- Reduces the amount of unnecessary patient transfers
- Promotes continuing medical education

The hospitals using the Eceptionist telemedicine platform include:

- Bethlehem Arab Society for Rehabilitation in Beit Jala
- Beit Jala Government Hospital in Beit Jala
- European Hospital in Gaza
- Holy Family Hospital in Nazareth (Italian Hospital)
- Jenin Government Hospital in Jenin
- Rafidiah Hospital in Nablus
- Ramallah Government Hospital in Ramallah
